APIS & DATA

- REST APIs
- GraphQL
- Axios / Fetch
- State Management
- Supabase

TOOLS

- GIT & GitHub
- VS Code
- Postman
- Figma (UI-to-code)

CORE STRENGTHS

- Debugging
- Problem Solving
- Performance Optimization
- Code Refactoring

PROFILE

Frontend Developer with 3+ years of production experience shipping scalable UIs in fast-moving startup environments. Specialized in Nuxt.js, Vue.js, and React — with a strong track record in component architecture, REST & GraphQL API integration, and performance optimization. Known for turning complex Figma designs into clean, maintainable code and debugging problems others avoid.

WORK EXPERIENCE (3+ YEARS)

DeepSell (Augmented SCM Pvt Ltd) DEC 2022 - DEC 2025

Frontend Developer — Contract (Remote)

- Owned end-to-end frontend development of core product features in an AI-commerce platform.
- Architected and delivered 20+ reusable Vue/Nuxt components, adopted across multiple product modules
- Integrated REST & GraphQL APIs across key flows, resulting in a 28% improvement in page load time.
- Diagnosed and resolved integration issues that cut API response failure rates by 40%

DeepSell (Augmented SCM Pvt Ltd) JUN 2022 - NOV 2022

Frontend Developer — Intern (Remote)

- Built core UI components used across production features.
- Integrating REST APIs and writing utility functions.
- Improved layout structures, responsiveness, and reusable styles.

MarsDevs MAY 2022 - JUL 2022

Frontend Developer — Internship (Remote)

- Converted Figma designs into responsive, production-quality Vue/Nuxt interfaces.
- Developed UI modules across 3+ client projects with consistent cross-browser compatibility.

FREELANCING PROJECTS

Nishkalanka English School (Nuxt.js + Supabase)

Built a full-stack school website with dynamic content management via Supabase

St. Teresa's School (Nuxt.js)

School Website (Full Stack Development)

Thapa Construction (Nuxt.js + Supabase)

Delivered a business website with Supabase backend, handling inquiries and project showcases

Revival Church Community (Nuxt.js)

Developed a responsive community website with event listings and announcements

My Portfolio (React)

Built a personal developer portfolio with animated sections, project filters, and QR-linked live demos.
